Collaborative Professional Learning to Support Vermont Schools

## GOOGLE CLASSROOM SERIES

### Be Ready for Google Classroom, Forms & Choice Boards & Hyperdocs

#### Online Learning 4 part Mini-Series

#### Summer 2020

#### Instructor/Facilitator: Adam Seipel

*Learning Technology Integrator for Albemarle County, VA, Masters in Instructional Technology, Google Certified Trainer, Google Certified Innovator*

#### Session 1: Google Classroom 101

Brand new to Google Classroom? Want to see how you can foster efficient learning and feedback? This is the session for you! Participants in Classroom 101 can start off as complete novices and end with their very own class ready to use with students. Users will need access to a G Suite for Education account.

Topics include:

- Creating a class
- Making Assignments
- Organize your class with topics
- Adding students
- Themes

#### Session 2: Google Classroom 201

Learn how to supercharge your Google Classroom as we build an organized and responsive class. We'll look at setting up your class, adding different types of resources, and giving enriching feedback as well as other tips and tricks. This workshop is designed for educators who have some experience or familiarity with Classroom.

Topics include:

- Different types of posts
- Organize your class with topics
- Other ways to bundle learning for students
- Creating quizzes and importing their results
- Giving feedback in assignments
- Mobile app
- And some future updates coming your way

#### Dates:

July 13, 14, 15, 16, 2020

#### Time:

9:30 am – 10:45 am

Each session is 75 minutes long with opportunities for Q & A.

#### Location:

Online Zoom Link

#### Cost:

CVEDC Members: \$125/series

Non-Members: \$175/series

(note if this fills up, we will run a repeat summer series.)

### Session 3: Google Forms

It's no lie that Forms is one of Adam's favorite Google tools. From simple back to school to contact logs and weekly check-ins to self-grading quizzes, Forms is my go-to -- and it will soon be yours, too. Participants will learn how to create a form, add questions and content, and complete challenges.

Topics Include:

- Creating a Form
- Adding questions & question types
- Sharing form
- Reviewing responses
- Quizzes
- Challenges

### Session 4: Choice Boards & Hyperdocs Extended

Districts around the country are emphasizing the importance of instructional flexibility and student wonder over prescribed lesson plans. By using Choice Boards and Hyperdocs, teachers can facilitate learning that straddles the line between structure and fluid while emphasizing a holistic, child-centered experience for our learners. Participants will explore examples of Choice Boards & Hyperdocs, review best practices, and receive multiple templates to use. This session includes an additional fifteen minutes of building Choice Boards or Hyperdocs and Q&A

About our Instructor:

Since 2008, I have taken my love of education to K-12 teachers and administrators. In fall of that year, I started helping other teachers in my district incorporate Google Sites, Docs and other tools into their instruction. Later, I continued introducing educators to Google Apps by piloting a 1:1 Chromebook program in my high school English class in which my students self-published an anthology of their own writing.

I work in Charlottesville, VA where I am a Learning Technology Integrator. I have the pleasure of working alongside teachers to help them prepare students for a future that includes maker spaces, coding and authentic creation. I am currently focused on aligning ed tech practices with the research-based concepts from John Hattie's Visual Learning studies. Additionally, I have my Master's degree in Instructional Technology, am a Google Certified Trainer and Google Certified Innovator.
