

# Champlain Valley Educator Development Center

Collaborative Professional Learning to Support Vermont Schools

## Innovative Learning Spaces: Creative School Design

Facilitated by [Ira Socol and Pam Moran](#)

Target Audience: K-12 Educators

*If we're re-setting our physical spaces post-pandemic, how can that re-set move us toward spaces with learners at the center?*

This 90-minute virtual session with two experts in innovative and engaging school design, will offer participants examples of schools that transformed settings and spaces to engage learners at any age.

Their solutions range from “no cost DIY” to “what you might dream for a completely new space”. Whether you are re-thinking your common school spaces to include music studios, cooking pods for student-designed snacks, STEM workspaces, or making your classroom space feel more inviting and less institutional, Pam and Ira will lead a discussion and share resources that will help you create the changes that have a real impact on **student engagement**.

Register for this **FUN** end-of-June workshop. **Inspirational Discovery Plans** are around the corner!

Date:

June 29, 2021

Time:

10 – 11:30 am

Location:

Zoom

Cost:

\$50 per participant
