

Champlain Valley Educator Development Center

Collaborative Professional Learning to Support Vermont Schools

Math Menu for Teams 3 Day Workshop Series

NEW - STARTING LATER!

Facilitated by: Christian Courtemanche

Target Audience: Grades K-6 educators & coaches and school/district-based teams (both those new and experienced with Math Menu) interested in adopting or fine-tuning a menu model of differentiation to meet the needs of all learners.

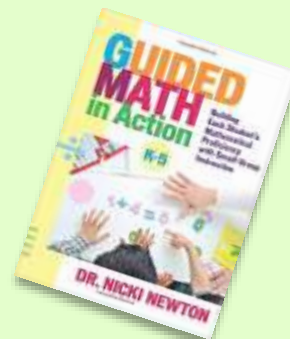

Participants will be guided through how the math menu differentiation approach can connect with and augment the programs and practices already in place in classrooms. A portion of each session will be facilitated in a menu format and include an additional learning opportunity for coaches or lead-teachers at the end of each day.

Explorations will include:

- Reframing tier I math instruction in order to meet the ongoing range of instructional needs
- Orienting to a small group menu structure for a portion of your math block
- Mapping concepts to stations; managing a 'centers' approach
- Using formative assessment to plan for and facilitate guided math groups
- Supporting students who excel in math with targeted instruction; maximizing time and resources for students who struggle

COACHES CORNER: The last hour of each session will be reserved for coaches and administrators interested in bringing the menu approach to a more systematic implementation. Explorations will include: creating a vision and timeline for school-/district-wide implementation, supporting teachers who are just getting started, connecting menu to formative assessment and data-team PLC systems, and using observation templates and implementation rubrics.

About our Facilitator: Christian Courtemanche is the Chittenden East District Math and Science Instructional Coach and has been teaching Math Menu for Differentiated Instruction since 2013 as a graduate course. One of CVEDC's most popular courses, Christian will work on extending these strategies so that teams and leaders can work on fine-tuning a menu model throughout their schools, based on the success of current implementers.

NEW - STARTING LATER

Dates:

November 30, 2017
January 12, 2018
February 13, 2018

Hours:

8:30 registration
9:00-3:00 (all)
3:00-4:00 (coaches)
breakfast and lunch
included

Location:

Hampton Inn
Conference Center
Colchester, VT

Cost:

CVEDC Members:
\$500/series (includes
book)
Non Members:
\$600/series

Book:
Guided Math in Action
K5 by Dr. Nicki Newton
