Collaborative Professional Learning to Support Vermont Schools

## OGAP for Teams Formative Assessment in Mathematics

Instructors: Fran Huntoon, Mary Abele-Austin, Keynote by Bob Laird

**Target Audience:** Math Teachers & their math coach, teacher leader or curriculum leader in Grades 3-8

This 4-part series is designed to bring the proven success of the OGAP framework, which has seen excellent results in student performance around the U.S. and internationally, right here to our teaching teams in **Vermont**. This series is designed to work well with whatever curriculum materials you are using – focusing on formative assessments and structures that will impact student learning.

### Session 1: Formative Assessment: What Is It? Why Is It So Important?

- Bob Laird: Keynote OGAP and Why it is Important
- Characteristics and research behind formative assessment
- Self-assessment of practice
- Planning action steps

### Session 2: OGAP PLC: A Protocol for Looking at Student Work & Adjusting Instruction

- Protocol
- Using Learning progressions to analyze evidence of student understanding
- Adjusting instruction

### Session 3: Just in Time: What Do You Want to Know About Your Student Understanding and When? Be Intentional.

- Linking formative assessment tasks to units of study
- Multiple purposes behind formative assessment

### Session 4: Next Steps: Using Student Work to Move the Mathematics Forward

- General categories for next instructional steps
- Adjusting instruction
