

## Weaving Standards, Technology and Lifelong Skills into Content Areas

Instructors: Lisa Barry and Chris CichoskiKelly

March 2016

*Communication, Collaboration, Creativity, Innovation, Inquiry and Problem Solving are the **Transferable Skills** identified by the VT AOE.*

This 3-credit course will focus on the use technology to help all students attain national and Vermont standards and skills. Using technology tools, apps and resources that are inexpensive or freely available, educators will learn how to bring student learning to a higher level. We will focus on how to align content-based graduation proficiencies with the transferable skills to create curriculum around all content areas.

Participants will:

- Spend time researching apps and extensions that can be used on any device that can use a Chrome browser, including many Google Apps for Education Programs and Add-ons. To help build familiarity with and to make learning more available to participants, **participants will receive a Chromebook as part of this course.**
- Explore Universal Design for Learning and the use of assistive technology to meet the needs of all students.
- Design a project that incorporates **transferable skills**, technology, assessments, and indicates understanding of higher level uses of technology to help students achieve standards.
- Compare and contrast appropriate content standards, ISTE Student-Technology Standards, and the Vermont AOE transferable skills identifying how technology supports these standards and skills.

\*This course is appropriate for all teaching grade levels as these skills are part of all curriculum content. These skills can serve as benchmarks for assessing student proficiency.

<b>Dates:</b>	Wednesdays – 3/9, 3/16, 3/23, 4/6 and 4/13 Saturdays – 3/5 and 3/26 Plus additional 8 online hours	<b>Time:</b> 4:00 – 8:00 pm <b>Time:</b> 8:00 – 3:00 pm
