Collaborative Professional Learning to Support Vermont Schools

Using Inquiry-Based Teaching to Promote Justice & Combat Inequity

Dr. Kathy Swan, C-3 Author

making
inquiry
possible

Exploring the why, what, who, and how
of inquiry-based instruction

 Dr. Kathy Swan

CVEDC -ESA | Spring 2023 | Burlington, VT

Join Dr. Swan for this two-day workshop in developing a coherent and holistic approach to inquiry-based social studies when thinking about curriculum, instruction, and assessment.

In this workshop, you will work on:

- crafting an inquiry-based curricular loop for a course;
- honing inquiry-based instructional practices (e.g., deliberation, questioning, source analysis);
- building an inquiry culture that includes a collaborative network of teachers and administrators.

Through the Inquiry Design Model (IDM), Dr. Swan will show how teachers can pose expansive questions that promote justice and expose students to sources that demonstrate the ways in which history is framed by both oppression and resistance. The C-3 Framework for State Social Studies Standards places inquiry at the center of good social studies teaching and learning.

April 18 & 19, 2023
NEW DATES
